

Shaivi Goel

Product Designer | UX Designer | Interaction Designer

shaivi.designs@gmail.com | +91 6395887399 | [LinkedIn](#) | Portfolio: shaivi-tech.github.io/shaiviporfolio

Product designer with experience across enterprise UX, fintech products, and data-heavy trading workflows, from being the sole designer at Vikasya AI to working within D. E. Shaw's design team. Skilled in user research, prototyping, information architecture, dashboard design, developer handoff, and cross-functional collaboration with engineers and data teams on complex, data-driven products.

EXPERIENCE

D. E. Shaw India, UX Design Intern

June 2026 – July 2026

- Built a scalable enterprise UX alerting component for a fintech bond trading workflow as plug-and-play infrastructure, using component architecture and reusable patterns for internal, data-driven tools.
- Improved intelligence and partner tracking for traders and portfolio managers by revamping a firm-wide internal CRM, applying information architecture and usability research to complex, data-heavy workflows.
- Increased design velocity for custom UI needs by building an AI-assisted design widget library using agent windows for UI creation and rapid, interactive prototyping.

Vikasya AI, Product Designer

July 2025 – January 2026

- Designed admin dashboards and the company website end to end, translating product requirements into user flows, responsive interfaces, reusable UI patterns, and scalable design systems.
- Designed the Faithtech customer app and admin dashboard from concept to developer handoff, mapping end-to-end user journeys and interaction flows across a complex, multi-platform product experience.
- Created design documentation and detailed developer handoff specs to strengthen cross-functional collaboration with engineering, improving implementation accuracy and reducing rework.

EDUCATION

Delhi Technological University

Bachelor of Design, Interaction Design, CGPA: 8.6

Ann Mary School, Dehradun

Class 12th: 87% | Class 10th: 95%

PROJECTS

BudgetBuddy, Personal Expense Tracker (UX Case Study)

March 2025 – April 2025

- Improved user engagement and financial awareness by designing a personal finance app case study focused on streamlined expense tracking and budgeting.
- Validated design decisions through user research, translating findings into wireframes and prototypes tested with real users, built in Figma.

IRCTC Website Redesign (UI/UX Design Case)

April 2024 – June 2024

- Enhanced accessibility and user experience for India's national rail platform by redesigning its information architecture.

SKILLS

User Research, Usability Testing, Enterprise UX, Complex UX, Information Architecture, Prototyping, Wireframing, User Flow Mapping, Developer Handoff, Cross-functional Collaboration, Fintech UX, Trading Workflows, Design Systems, Component Architecture, Responsive Design, Visual Hierarchy, Communication, Problem Solving, Team Collaboration

TOOLS

Figma, Framer, Adobe Creative Suite, Claude, Notion, FigJam, Miro, Maze, DaVinci, AI-assisted design tools

CERTIFICATIONS

- Design for a Better World with Don Norman, The Interaction Design Foundation, 2025
- AI for Designers, Interaction Design Foundation
